The Whiz Freedom

# When nature calls

*Simply the best and most eco-friendly urine director in the world*

CE Marked  
 Medically Approved  
 Available on NHS prescription

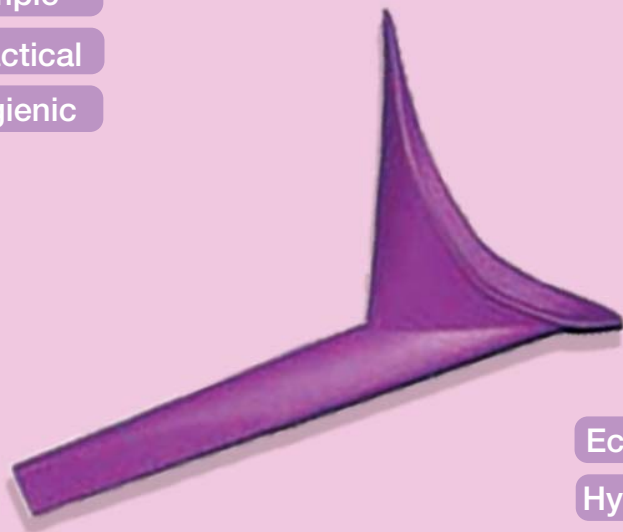

## Giving Women the freedom to pass urine conveniently

The Whiz freedom is a small and easy to use device which allows women to urinate whilst standing or squatting, without undressing. Carefully designed to fit the curves of the female body, the Whiz is non-invasive, hygienic and comfortable. It is made of a flexible medical grade plastic which is impregnated with an anti-bacterial agent and is hydrophobic – repelling fluids with a single flick and leaving no smell or residue.

### Key-features of the Whiz Freedom:

Healthy - hydration friendly  
Quick - easy to use  
Clean and Hygienic - antibacterial and liquid repellent  
Small and Discreet - easily rolled, folded and stored  
Eco-friendly, re-usable, washable  
Self Cleaning - unique hydrophobic material  
Available on NHS Prescription  
CE marked, FDA and medically approved

Can be used standing or sitting, indoors or outdoors  
No need to undress  
Comfortable 'lily' shape moulded to the female form  
Shape clinically tested by over 1400 women  
Now used by 10s of thousands of women in over 87 countries

The Whiz is re-usable (eco-friendly) and can be discreetly rolled, folded and stored. It has been clinically trialled and is used by women of all ages, giving them the freedom to pass urine conveniently. It has been used from military situations to kyaking and trekking in the desert, keeping you fully hydrated meanwhile.

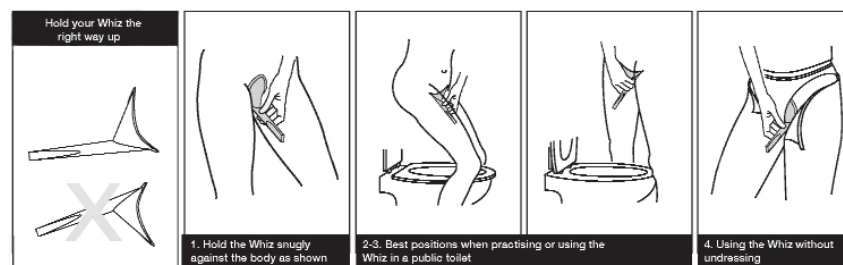

Ideal for travelling, camping, festivals, outdoor trips and anyone who is eco-conscious, the Whiz has been endorsed by both sports-women, and the mobility impaired and has made dirty toilets, long queues and awkward pee-stops a thing of the past.

## Every Woman should have one!

The Whiz is for every woman of every age living every lifestyle because at some point every woman goes on holiday; is faced with unhygienic toilets; gets caught in a traffic jam; travels by train or plane; goes walking or camping or just simply gets caught short.

“Wow, wow, wow - what a product! I've been waiting for this all my life. Finally an invention that advances feminine hygiene at a stroke”.

Shelley G, Birmingham

“It's absolutely brilliant. I am a keen angler and having to wee beside a lake or river has always been a problem in the past. Disgusting public toilets are no longer a problem either. My Mum and Nan both want a Whiz now too and I would like one for my three year old daughter”.

Sarah B, Chelmsford

“I've tried the Whiz out and am amazed at how well it works. I have two very young children and always have a problem getting to the toilet when I'm out with them both in tow. Thankfully I now know I will be able to cope with any situation. Thank you for solving a very difficult problem”

Gillian M, Aberdeen

“At my age, I often find myself in difficult circumstances but with the Whiz I have been saved from many embarrassing situations, especially when I am out and about. It has been a real life saver”.

Pat P Devon

“With a connecting tube I am able to use the Whiz in the wheelchair and also in the car. It is very quick and empties cleanly into a bottle with no mess. I am very pleased to have solved the problem of how to go to the loo when toilets are inaccessible or locked up. Thank you very much”

Rosemary L, London

“Fantastic, no need to carry disposable paper or pads”

Penny M, Wales
