Mr [redacted] Wilson

To whom it may concern.

I bought a couple of you're whiz products, (whiz Freedom)  
And would like to congratulate and thank you on a great product. As  
a Transman I have used many different kinds of Stand-to-pee  
products, and the whiz, currently takes the biscuit for me.  
Many Transmen modify products like the whiz too fit a prosthetic  
penis to "pass" as male at urinals including myself who has had much  
better results with the whiz than many other STP products out there  
(I only modify your product for my own personal use) I will be  
buying more of your product (when i can offered) to improve on my  
original prosthetic (I'm a bit crafty and creative) its a shame the  
whiz doesn't come in skin or mid-tone skin colour, but I'm not aware  
of any STPs that do.

Also congrats on not giving the Whiz a feminine name like the "go  
girl" products, which can be a bit off putting to transmen.  
I may also buy a couple for my female friends, who could have used  
these last year while at a concert.

Do you think you will ever be selling Whiz Freedom's in multiples?  
Anyway, i hope your business is doing well and that you continue to  
manufacture in the future.  
Thank you again.

Mr [redacted] Wilson
